

MAKE YOUR PROJECT Wardrobe Collection

MAKE YOUR PROJECT Wardrobe Collection

Make Your Project, Introduzione

Questo catalogo tecnico è stato concepito come uno strumento pratico e approfondito per supportare architetti, progettisti e professionisti del settore nell'utilizzo e nella personalizzazione del sistema Antibes, in tutte le sue varianti. Un sistema completo e modulare che va oltre la semplice funzione contenitiva: dalle cabine armadio ai sistemi giorno, dalle cassettiere ad isola alle boiserie, ogni componente è studiato per integrarsi con precisione in contesti sia residenziali che contract. Il cuore del sistema è rappresentato dalla struttura monospalla portante con fianchi pieni, che garantisce solidità e libertà compositiva, permettendo configurazioni lineari, bifacciali e monofacciali, con o senza sovrapposizioni. Grazie alla compatibilità con le porte ADL — disponibili in versione a bilico o a libro — Antibes si presta a soluzioni su misura, adattandosi perfettamente agli spazi e alle esigenze funzionali. Il catalogo fornisce una panoramica dettagliata delle finiture, dei materiali disponibili e delle possibilità di integrazione con accessori interni, illuminazione e moduli speciali. Completano il documento le sezioni tecniche dedicate ai disegni quotati, alle istruzioni di montaggio, ai sistemi di fissaggio e alle tolleranze, per agevolare ogni fase del progetto: dal concept iniziale alla realizzazione finale. Questo strumento è pensato per valorizzare le prestazioni tecniche e l'eleganza essenziale del sistema Antibes, espressione dell'approccio sartoriale e dell'eccellenza progettuale firmata Boffi.

This technical catalogue has been conceived as a practical and comprehensive tool to support architects, designers, and industry professionals in the use and customization of the Antibes system in all its variations. A complete and modular solution that goes far beyond simple storage: from walk-in wardrobes to living systems, from freestanding drawer units to boiserie panels, each component is carefully designed to integrate seamlessly into both residential and contract settings. At the heart of the system is the self-supporting single-side structure with full-height panels, which ensures solidity and compositional freedom, allowing for linear, double-sided, and single-sided configurations — with or without overlapping elements. Thanks to its compatibility with ADL doors — available in pivot or folding versions — Antibes lends itself to tailor-made solutions, adapting perfectly to different spaces and functional requirements. The catalogue provides a detailed overview of available finishes, materials, and integration options with internal accessories, lighting systems, and special modules. Technical sections include dimensioned drawings, assembly instructions, fastening systems, and tolerances, to support every stage of the process — from the initial concept to the final installation. This document is designed to highlight the technical performance and understated elegance of the Antibes system, a true expression of Boffi’s tailored approach and design excellence.

Design by Piero Lissoni

Antibes

Antibes ridefinisce il concetto di cabina armadio, trasformandolo in uno spazio in cui estetica e funzionalità convivono in perfetto equilibrio. Ogni dettaglio è progettato per rispecchiare gusti personali e necessità pratiche, offrendo soluzioni che superano le aspettative grazie all'approccio visionario di Boffi. È un sistema modulare di cabina armadio con fianchi strutturali ideato per rispondere alle più diverse esigenze di allestimento con la massima flessibilità di composizione. Si caratterizza per una vasta scelta di attrezzature, per le finiture raffinate e l'illuminazione integrata. Il progetto si completa con una raffinata architettura portante, pensata per accogliere diverse tipologie di porte ADL integrandosi con disinvoltura in contesti diversi. Le configurazioni possibili spaziano da soluzioni a parete a sistemi bifacciali o monofacciali, con o senza sovrapposizioni, garantendo una perfetta adattabilità sia agli spazi più ampi che a quelli più raccolti.

Antibes redefines the concept of the walk-in closet, transforming it into a space where aesthetics and functionality coexist in perfect harmony. Every detail is designed to reflect personal taste and practical needs, offering solutions that exceed expectations thanks to Boffi's visionary approach. It is a modular walk-in closet system with structural side panels, conceived to meet a wide range of layout requirements with maximum compositional flexibility. It stands out for its extensive selection of equipment, refined finishes, and integrated lighting. The project is completed by an elegant supporting structure, designed to accommodate various types of ADL doors and to seamlessly integrate into different interior settings. Available configurations range from wall-mounted setups to double- or single-sided systems, with or without overlaps, ensuring perfect adaptability to both spacious and compact environments. sophisticated that include side panels and built-in wardrobe.

La struttura di armadi e cabine armadio si compone di fianchi, schienali, ripiani, coperchi e basamenti, elementi progettati per integrarsi tra loro in combinazioni flessibili. Per gli armadi, si aggiungono diverse varianti di ante, pensate per adattarsi alle modalità di apertura disponibili. Ogni componente è studiato per offrire soluzioni personalizzabili, in grado di rispondere a qualsiasi esigenza architettonica.

The structure of wardrobes and walk-in closets is made up of side panels, back panels, shelves, tops, and bases—elements designed to integrate seamlessly into flexible combinations. For wardrobes, various door options are available, tailored to suit different opening systems. Each component is carefully designed to offer customizable solutions that can meet any architectural requirement.

Componenti	Components
1 Fianco terminale	1 End side panel
2 Fianco intermedio	2 Central partition
3 Basamento	3 Base

Dai numerosi nobilitati disponibili fino alle finiture più pregiate, come il vetro applicato a fianchi, schienali e ante, il sistema consente la realizzazione di sistemi esclusivi. Boffi offre la massima libertà compositiva, permettendo infinite combinazioni tra finiture interne ed esterne. I dettagli metallici, proposti in due varianti, possono essere scelti a contrasto o tono su tono, per valorizzare ogni configurazione con coerenza estetica o accenti distintivi.

From a wide selection of melamine finishes to more refined materials such as glass — applied to side panels, back panels, and doors — Boffi enables the creation of exclusive showcase wardrobes. The system offers unlimited freedom in combining interior and exterior finishes, allowing for fully personalized solutions. Metallic detailing, available in two finish options, can be configured either in contrast or tone-on-tone to enhance visual coherence or create distinctive accents.

L'ordine progettuale è la cifra stilistica di Antibes. Ogni elemento è studiato per ottimizzare lo spazio e rispondere con precisione alle esigenze di contenimento. Cassettiere e contenitori a giorno, porta pantaloni estraibili e aste appendiabiti in alluminio bronzato, cassetti portacamicie con spondine in metallo nero opaco, vassoi estraibili con telaio in alluminio bronzato e vetro. Soluzioni su misura accolgono scarpe, gioielli, accessori e orologi, trasformando lo spazio interno in un ambiente funzionale e altamente personale.

Design order is the defining stylistic feature of Antibes. Every element is conceived to optimize space and precisely meet storage needs. Drawer units and open compartments, pull-out trouser racks and bronzed aluminum hanging bars, shirt drawers with matt black metal sides, and pull-out trays with bronzed aluminum frames and glass. Tailor-made solutions accommodate shoes, jewelry, accessories, and watches, transforming the interior into a functional and highly personalized space.

Hanging drawer units and hanging elements

Cassettiere con cassetti in Nobilitato / Silcolak/Legno/Legno Selection
Struttura, cassetti e frontali in Nobilitato/ Silcolak/Legno/Legno Selection. Disponibile rivestimento frontali in Microfibra/Pelle rigenerata/Pelle. Senza maniglia, apertura automatica a pressione TIP-ON. Da completare con ripiano superiore di chiusura.

Drawer units with drawers in melamine/ Silcolak/Wood/Wood Selection
Carcass, drawers and fronts in Melamine/ Silcolak/Wood/Wood Selection. Front covering in microfibre/bonded leather/leather available. Without handle, with TIP-ON push-opening mechanism. To be completed with upper covering shelf.

Cassettiere con cassetti Legrabox
Struttura, cassetti e frontali in Nobilitato/ Silcolak/Legno/Legno Selection. È possibile rivestire i frontali dei cassetti in Microfibra/Pelle rigenerata/Pelle. Da completare con ripiano superiore di chiusura.

Drawer units with Legrabox drawers
Carcass, drawers and fronts in Melamine/ Silcolak/Wood/Wood Selection. Drawer fronts can be covered with microfibre/bonded leather/ leather. To be completed with upper covering shelf.

Gruccie per abiti uomo
Hangers for suits
Massello di faggio tinto nero opaco. Gruccia per abiti e pantaloni, predisposta per fissaggio ad asta prendiabiti senza gancio. Gruccia portapantaloni.
Solid beech-wood, matt black painted. Clothes hanger for suits and trousers, arranged to be fixed to clothes hangers reacher without hook. Clothes hanger for trousers.

Gruccie abiti donna
Hangers for dresses
Massello di faggio tinto nero opaco. Gruccia per abiti e gonna/pantaloni, predisposta per fissaggio ad asta prendiabiti senza gancio. Gruccia per gonna/pantaloni con pinze.
Solid beech-wood, matt black painted. Clothes hanger for dresses and skirt/trousers, arranged to be fixed to clothes hangers reacher without hook. Clothes hanger for skirt/trousers with clips.

Asta prendiabiti
Clothes hangers reacher
Massello di faggio tinto nero opaco. Asta prendiabiti senza gancio, da fissare alla gruccia per abiti. Asta prendiabiti con gancio.
Solid beech-wood, matt black painted. Clothes hangers reacher without hook, to be fixed to clothes hanger. Clothes hangers reacher with hook.

Sacca copriabito
Garment cover bag
Tessuto "Rigatino" nero (100% cotone - Peso gr. 210/mq). Altezza 900 mm chiusa/1200 mm aperta. Apertura a zip, chiusura inferiore a bottoni.
"Rigatino" black fabric (100% cotton - gr. 210/sqm). Height: 900 mm closed/1200 mm open. Zipped clothing cover, with buttons on the bottom part.

Perno appendigruccia estraibile
Pull-out hook for coat hangers
Metallo cromato, tappo terminale verniciato nero. Inserito sul frontale del ripiano.
Chrome-plated metal, black painted end cap. Fixed on shelf front trim.

Scatola cambio stagione con coperchio
Clothes box with lid
Cartone rivestito con tessuto Setalux® nero (100% fibra di viscosa effetto seta - Peso gr. 180/mq).
Scatola 400 × 260 mm. Scatola 400 × 400 mm.
Cardboard covered with black Setalux® fabric (100% tissue lined filament viscose with silk appearance - weight: gr. 180/sqm). 400 × 260 mm. clothes box. 400 × 400 mm. clothes box.

Barra appendiabiti
Hanging clothes bar
Realizzata in alluminio bronzato/anodizzato nero. Provvista di guarnizione anti rumore.
Made of bronzed/black anodised aluminium. Supplied with noise-reducing gasket
Nis alite rem vendi alicisci consendunt.

Illuminazione orizzontale
Horizontal lighting
 Incassata nello spessore del ripiano/piano superiore oppure integrata nel telaio del ripiano in vetro. Schermo diffusore in policarbonato bianco. Aletta frangiluce antiaccecamento nera. È possibile prevedere l'accensione tramite comando remoto, sensore di apertura o radiocomando.
 Recessed into the thickness of the shelf / top or integrated in the frame of the glass shelf. Diffuser screen in white polycarbonate. Black anti-glare louvres. It is possible to switch it on using the control in remote position, the opening sensor or the radio control.

LED 24V, 11 W/m, 2700K, CRI90

Illuminazione verticale su schienale
Vertical lighting on back panel
 Integrata nel telaio perimetrale in alluminio dello schienale. Corpo lampada in estruso in alluminio con luce a LED. Schermo diffusore in policarbonato nero. Compatibile solo con schienali a telaio con specchio/vetro. È possibile prevedere l'accensione tramite comando remoto, sensore di apertura o radiocomando.
 Integrated light around the aluminium frame of the back panel. Lamp body in extruded aluminium with LED light. Diffuser screen in black polycarbonate. Compatible only with framed back panels with mirror/glass. It is possible to switch it on using the control in remote position, the opening sensor or the radio control.

LED 24V, 11 W/m, 2700K, CRI80

Illuminazione verticale su fianco
Vertical lighting on side panel
 Incassata nello spessore del fianco. Corpo lampada in estruso in alluminio con luce a LED. Schermo diffusore in policarbonato bianco. Non compatibile con fianchi a telaio. Installazione prevista solo su fianco destro di ogni modulo. È possibile prevedere l'accensione tramite comando remoto, sensore di apertura o radiocomando.
 Recessed in the thickness of the side panel. Lamp body in extruded aluminium with LED light. Diffuser screen in white polycarbonate. Not compatible with framed side panels. Installed only on the right side of each module. It is possible to switch it on using the control in remote position, the opening sensor or the radio control.

LED 24V, 8 W/m, 2700K, CRI80

Schienale retroilluminato
Backlit back panel
 I moduli con schienale retroilluminato non potranno essere allestiti con accessori interni con illuminazione integrata. Schienali retroilluminati di differenti misure, generano differenti rese luminose. Dimmerazione e controllo della temperatura colore tramite radiocomando.
 The modules with backlit back panels cannot be equipped with interior accessories fitted with integrated lighting. The light output of backlit back panels of different dimensions may differ. Dimmer and temperature colour control via radio control.

Il comparto dei sistemi Boffi propone soluzioni architettoniche attraverso l'integrazione di porte a filo o completamente integrate con aperture a battente, complanare e scorrevole – anche grazie al contributo della gamma ADL – che si inseriscono nei sistemi Antibes delineando ambienti continui e sofisticati. A completare la proposta, una selezione di finiture e maniglie da listino consente una personalizzazione totale, dando vita a progetti realmente su misura.

The Boffi systems division offers architectural solutions through the integration of flush or fully integrated doors with hinged, coplanar, or sliding openings—thanks also to the contribution of the ADL range—which blend seamlessly into the Antibes systems, creating continuous and sophisticated environments. Completing the offering is a selection of finishes and handles from the catalogue, allowing for full customization and giving life to truly bespoke projects.

Design by Piero Lissoni

Antibes Boiserie

Antibes Boiserie è un sistema componibile per cabine armadio che consente composizioni su misura, in soluzioni lineari o ad angolo, accessoriate e senza fianchi a vista. La struttura è costituita da montanti a cremagliera in alluminio anodizzato naturale, mentre gli elementi che si innestano sulla struttura – fondali, basamenti, ripiani, cassettiere sospese – sono in finitura nobilitato, laccato o impiallacciato legno nella gamma di colori ed essenze selezionate da Boffi. Ogni configurazione può essere arricchita da accessori versatili, finiture di pregio e un'illuminazione LED superiore, che valorizza i volumi e le texture.

Antibes Boiserie is a modular walk-in closet system that allows for custom-made compositions in linear or corner configurations, fully equipped and designed without visible side panels. The structure features natural anodized aluminum rack uprights, while the elements mounted onto the structure – back panels, bases, shelves, and suspended drawer units – are available in melamine, lacquered, or wood veneer finishes, in a range of colors and wood types selected by Boffi. Each configuration can be enhanced with versatile accessories, refined finishes, and top-mounted LED lighting that highlights volumes and textures.

Antibes Boiserie
Composizione a parete con cassetti,
vani a giorno e ripiani in vetro.

Design by Piero Lissoni

Freestanding Drawer Island Units

Una presenza dalle funzioni pratiche ed estetiche. Le cassettiere a isola pensate per Antibes possono essere mono o bifrontali, anche su basamento in tubolare di metallo. I cassetti, con apertura a pressione, sono proposti nelle varie finiture a listino, incluso il rivestimento a specchio, ed essere abbinati a vani a giorno con vassoi estraibili.

A presence with both practical and aesthetic functions. The island drawer units designed for Antibes can be single- or double-sided and are also available with a tubular metal base. The push-to-open drawers come in a variety of finishes from the catalogue, including mirrored surfaces, and can be combined with open compartments featuring pull-out trays.

Cassettiere monofrontali

Single-sided drawer units

Cassettiera ad isola monofrontale

This technical catalogue has been conceived as a practical and comprehensive tool to support architects, designers, and industry professionals in the use and customization of the Antibes system in all its variations. A complete and modular solution that goes far beyond simple storage: from walk-in wardrobes to living systems, from freestanding drawer units to boiserie panels, each component is carefully designed to integrate seamlessly into both residential and contract settings.
